The screenshot displays a music selection interface with a list of songs and a search menu. The background is a blurred image of a room with a blue wall and a wooden floor.

Album Art	Song Title	Artist	Progress	Heart Icon
	Brown Sugar	The Rolling Stones	83.5%	♥
	Gimme Shelter	The Rolling Stones	84.0%	♥
	Jumpin' Jack Flash	The Rolling Stones	0%	♥
	Sympathy for the Devil	The Rolling Stones	0%	♥

Below the list, the text "SELECT A SONG" is displayed in large white letters. At the bottom, a navigation bar contains the following items: Favorite (with a plus icon), CTRL Path/Input, SPACE Tools, ESC Back, and ENTER Select.

The search menu on the right side of the screen includes the following options:

- SEARCH
- FIND A SONG... (with SHIFT key icon)
- SORT BY
- SOURCE (with TAB key icon)
- FILTER BY
- FAVORITES (with ALT key icon)

---

Nice little game, not too easy and very enjoyable.. First off, I can't speak highly enough about Diadra Empty. I haven't played the steam version much, but I have about 150 hours played on the Japanese retail version, and I consider this to be one of my all time favorite games. At one time I held 2 of the 3 score records on the Japanese leader boards.

Diadra Empty is a unique and incredibly fun shooter that uses a free roam area that the player can navigate while overcoming waves of enemies. With a wide variety of weapons and strategies, there are many ways you can play the game, and with unlockable buffs and handicaps you can make it as easy or as challenging as you want. The graphics may not mean much to look at at first glance, but it makes up for it in dazzling effects and visuals.

Pros:

- Incredibly fun and addicting gameplay.
- Very high replay value.
- Memorable and catchy music.
- Small file size and low requirements make it playable on just about any system.

Cons:

- Game is very slow at start, which may turn off some players who want to jump straight into intense action. The real insanity of this game doesn't really show until you take on true and extra modes with everything unlocked.
  - Most of the steam achievements are bugged and unobtainable, which will leave you with a very low completion %.
- Completionists beware.
- The controls take some getting used to if you are using a keyboard.

If you love shmups, this game will remind you why. It's only \$6...what are you waiting for!?. The first arc of the game was very cool, but then, that's all there is. The game is like plant vs zombies with some cool powers, skill, .... However the progression is very slow and the grinding unbearably. You will have to do the same level hundreds of times to advance even on easy. That game would be better if:

- progress was faster
- I did not have to pause the game every 2 secs. That kills the immersion and every level takes hours.
- Your spirits did not die with one [hit](#). In plants vs zombies each plant takes some seconds to get eaten, here it's 0.01 secs

Not a bad game, but it takes a lifetime of grinding to advance. I really love these Mosaic or Patchwork Games. They are totally relaxing to me. And this one is really pretty with all its colors and the different "fabrics" and the Alice in Wonderland motifs. But I would find it super cool if there were a story in such games, that would make it a 10 out of 10 instead of an 8.. Treat a stream of patients with increasingly strange afflictions! As a wunderdoktor on a train, you treat those who come to you by cutting their, uh, head-mushrooms and removing their... chest crystals? You don't need to know how it works, just make sure to help everyone before the time runs out! The game is simple and fun, but also has little side quests (of sorts). The art, music and sound all give the game a whimsical feel, and it's nice to traverse different areas as you journey across the land. If this fun oddity sounds appealing to you, I suggest you try out Wunderdoktor!

---

This game is absolutely amazing, such a great concept, but there is very little content besides flying around aimlessly also please raise the ceiling height and increase the world size in general as once you get some speed you're at the end of the world already... also some missions and enemies or maybe some time trials or target practice something anything please add it :) oh and devs thank you this is one of my favorite games period awesome job so far oh and destructible environments would be nice too.. The game itself is pretty good for what it is, but the bullets seem too flashy and this would probably cause epileptic seizures for some people. I can only play a couple of rounds until my eyes are exhausted. Also the 10k kill trophy would be better of as 5k.. There are definite improvements since the last instalment. The puzzles are more thought out but can still be difficult if you don't pay attention. The story is also more developed and I look forward to seeing what happens next!. I bought this DLC because of the reviews and I must say I'm disappointed. Yes the route is long and scenic graphics, and the speed control is sensible, the best I've used since it's in the HUD. However the uphill route is boring enough to allow me to play a solitaire game until the train nears the summit, then its ride the brakes until the bottom of the hill where the usual wierd speed changes destroy any chance of a perfect run. I wish I could get a refund even tho I bought it on sale.. It's a fun game and I enjoyed myself for about 3 hours according to steam. I really feel this is more of a smartphone/tablet game. However, that doesn't really detract from it's fun. Great buy if on sale!. Amazing Title, go check it out!. I really enjoy that aspect of focusing on the RPG aspect of the game with out really having to focus on the RTS aspect to win your battles on the campaign game. As to focusing on both. It gets really crazy with how many keys your are hitting and how many things you feel like you have to keep track of. So if you are simple minded I don't think this game is for you. Then again there is a easy mode so maybe it can work for you.. It's pretty good. Would rather play it on my console.. If you are looking for a good old turn based game with magic, I highly recommend this one. It lets you variate how the world is created and then choose what race you are and etc. Its a great turn game and lets you have a lot of fun creating your armies and kingdoms!. still waiting for the french to be part of the war.
